

Work from home. Stay safe.

If the current health crisis is causing chaos in your life, it doesn't have to impact your work. Even if you're working remotely—or in quarantine! Many businesses are getting creative—restaurants are offering take-out meals, retail shops are selling gift cards online, and service-based businesses are enabling employees to work from home.

A simple, easy-to-deploy technology solution may be all you **need to work remotely virus-free.**

HOST VIRTUAL MEETINGS

Use video or audio chat features to host meetings with 2–200+ participants. Social distancing is easy to maintain with Microsoft Teams.

COLLABORATE ON SHARED DOCUMENTS

Work on a single document with multiple authors in real time, while keeping a digital version history to track changes and revisions in one location.

COMMUNICATE QUICKLY AND EFFECTIVELY

Reach your clients and colleagues with live chat features, message boards, “meet now” functionality, and robust email all in a single solution.

SECURE YOUR BUSINESS

Built-in security technologies and our team of world-class IT consultants mean you can rest assured your business is safe and sound.

“Imagis is a true partner. They readily provide information that is digestible. I have no IT background, but they made it easy to understand exactly what we need. I trust them to figure out what my options are and to get me the best possible solution for the best price. With Imagis, I know what we have will be cutting edge and still within our budget.”

Melissa Garcia

Director of Operations and Finance,
National Latina Institute for Reproductive Health
